General

Read and understand all instructions prior to the use of the product. Failure to adhere to instructions and warnings in this document may result in property damage, injury, or death. Product misuse due to failure of the following instructions will void the warranty.

Immediately discontinue use if any function is compromised, parts are missing, loose, or show signs of excessive wear. Consult with your supplier for repair, adjustment, or replacement.

If this document contains information you do not understand, or there are concerns about safety or operation, contact your supplier.

Important Information!

All persons responsible for fitting, adjustment, and daily use of the devices discussed in these instructions must be familiar with and understand all safety aspects of the devices mentioned. In order for our products to be used successfully, you must:

- Read and understand all instructions and warnings.
- Maintain our products according to our instructions on care and maintenance.
- Devices should be installed and adjusted by a trained technician.

Warning Labels

6.1

Warnings are included for the safety of the user, client, operator and property. Please read and understand what the signal words **SAFETY**, **NOTICE**, **CAUTION**, **WARNING** and **DANGER** mean, how they could affect the user, those around the user, and property.

 DANGER	Identifies an imminent situation which (if not avoided) will result in severe injury, death, and property damage .
 WARNING	Identifies a potential situation which (if not avoided) will result in severe injury, death, and property damage .
 CAUTION	Identifies a potential situation which (if not avoided) will result in minor to moderate injury, and property damage .
NOTICE	Identifies important information not related to injury, but possible property damage .
SAFETY	Indicates steps or instructions for safe practices, reminders of safe procedures, or important safety equipment that may be necessary.

Limited Liability

6.2

Stealth Products, LLC accepts no liability for personal injury or damage to property that may arise from the failure of the user or other persons to follow the recommendations, warnings, and instructions in this manual.

Testing

6.3

Initial setup and driving should be done in an open area free of obstacles until the user is fully capable of driving safely.

The TWB480-FDMKID should always be tested without any person sitting in the wheelchair until every alteration of the physical installation or adjustment of the hardware is complete.

Intended Use

7.1

The TWB480-FDMKID is a specially designed hardware that gives the ability to mount one of Stealth’s various headrests to the back of a Kid Kart stroller, utilizing a 17mm mounting ball. With Stealth’s link technology and an adjustable triangle that gives rotational adjustment, there is the possibility to position the headrest to meet with the client’s head.

Parts and Accessories

7.2

1. Kid Kart Vertical Bar

2. Kid Kart Seat Back Mount

3. 1/4-20 x 1/2" Flat Head Screw

4. 1/4-20 x 1/2" Button Head Screw

5. #10-32 x 5/8" Button Head Screw
6. 1/4" Flat Washer

7. #10 Flat Washer

8. TWB480-TR: TWB480 Triangle

9. TWB480-LINK: 3" In-Line Link

10. TWB480-LOL: 3" Offset Link

11. HMO-PEFDM

Tools Required

7.3

1. 1/8" Hex Tool
2. 5/32" Hex Tool

Installation Instructions

8.1

To install the TWB480-FDMKID, look at the picture below:

Hardware Mounting

8.2

Headrest Mounting SURING-SD

8.3

To mount the TWB480-FDMKID to the headrest, follow the instructions below:

CAUTION

When tightening screws, turn loosely until the screw stops, then tighten one quarter turn more. Overtightening screws may cause product malfunction and irreversible damage.

Headrest Mounting SURING

8.4

The TWB480-FDMKID is height adjustable on the mounting hardware and headrest. To adjust the height on the mounting hardware, follow the instructions below:

CAUTION

When tightening screws, turn loosely until the screw stops, then tighten one quarter turn more. Overtightening screws may cause product malfunction and irreversible damage.

Link Adjustment

9.1

To adjust the links on the TWB480-FDMKID, follow the instructions below:

Triangle Adjustment

9.2

To adjust the position of the triangle on the TWB480-FDMKID, follow the instructions below:

CAUTION

When tightening screws, turn loosely until the screw stops, then tighten one quarter turn more. Overtightening screws may cause product malfunction and irreversible damage.

Depth Adjustment

9.3

The TWB480-FDMKID is height and depth adjustable on the mounting hardware and headrest. To adjust the depth on the mounting hardware, follow the instructions below:

Height Adjustment

9.4

To adjust the height of the TWB480-FDMKID on the mounting hardware, follow the instructions below:

Headrest Adjustment

9.5

To adjust the TWB480-FDMKID position on the headrest, follow the instructions below:

CAUTION

When tightening screws, turn loosely until the screw stops, then tighten one quarter turn more. Overtightening screws may cause product malfunction and irreversible damage.

Flip Down Operation

9.6

To flip down the hardware, follow the instructions below:

Maintenance

10.1

It is recommended that all products be checked for wear and function on a periodic basis and repaired, if necessary, by a wheelchair professional.

- Repairs should be done with Stealth parts, fasteners, or items appropriate for the service needed.
- Discontinue use after identifying loose or broken components.
- Check and retighten all fasteners according to the installation instructions.
- If you must lubricate a moving part or hinge, do so sparingly using only a product approved for the situation.

Cleaning

10.2

- Positioning accessories can be wiped clean with a damp cloth and mild, nonabrasive cleaner.
- Ensure all cleaners are approved for finished steel, aluminum, plastic, and upholstered surfaces.
- Do not immerse in water or rinse with a water hose.
- Do not coat the metal surface with waxes or silicones.

CAUTION

Do not treat any surfaces with silicones, waxes, or preservatives meant for leather or vinyl. These treatments will make the surface slippery and defeat the positioning functions of the product.

Disinfecting

10.3

When needed, surfaces can be wiped with an approved disinfecting product.

- Ensure the disinfectant is approved for finished steel, aluminum, plastic, and non-upholstered surfaces.
- Covers— follow the fabric care labels affixed to the product.
- Fixed covers— Take care to notice the cover's fit to the pad so it can be refitted in the correct orientation.
- Zip the cover closed to avoid catching. Wash in warm water by hand or gentle machine cycle and drop or tumble dry on low heat.
- Some covers consist of different materials for the sides and contact surfaces. For these combinations, take care to wipe clean only.

CAUTION

Vinyl upholsteries should be wiped clean with mild, nonabrasive cleaner only.

CAUTION

Never machine wash vinyl. This includes our brushed aluminum, carbon fiber, Biscayne, naugahyde and sparkle upholsteries.
