General

Read and understand all instructions prior to the use of this product. Failure to adhere to instructions and warnings in this document may result in property damage, injury, or death. Product misuse or failure to follow instructions will void the warranty.

Immediately discontinue use if any function is compromised, if parts are missing or loose, or if any component shows signs of excessive wear. Consult with your supplier for repair, adjustment, or replacement.

All persons responsible for fitting, adjustment, and daily use of the devices discussed in these instructions must be familiar with and understand all instructions and warnings, and maintain our products according to our instructions on care and maintenance. The installation instructions will guide you through this products' options and possibilities.

Instructions are written with the expressed intent of use with standard configurations. They also contain important safety and maintenance information, as well as describe possible problems that can arise during use. For further assistance, or more advanced applications, please contact your supplier or **Stealth Products** at (512) 715-9995 or toll free at (800) 965-9229.

Always keep the operating instructions in a safe place so they may be referenced as necessary.

All information, pictures, illustrations, and specifications are based on the product information that was available at the time of printing. Pictures and illustrations shown in these instructions are representative examples and are not intended to be exact descriptions of the various parts of the product.

Important Information

CAUTION

These products are designed to be fitted, applied, and installed exclusively by a healthcare professional trained for these purposes. The fitting, application, and installation by a non-qualified individual could result in serious injury.

Warranty

Our products are designed, manufactured, and produced to the highest of standards. If any defect in material and workmanship is found, **Stealth Products** will repair or replace the product at our discretion. Any implied warranty, including the implied warranties of merchantability and fitness for a particular purpose, shall not extend beyond the duration of this warranty. **Stealth Products** does not warrant damage due to, but not limited to: misuse, abuse, or misapplication of product, and/or modification of product without written approval from **Stealth Products, LLC**. Any alteration or lack of serial number, where applicable, will automatically void all warranty.

Stealth Products, LLC is liable for replacement parts only. **Stealth Products, LLC** is not liable for any incurred labor costs.

Stealth Products warrants against failure due to defective materials or workmanship:

Covers: 2 years

Hardware: 5 years

Electronics: 3 years

In the event of a product failure covered by our warranty, please follow the procedures outlined below:

Call **Stealth Products** at (512) 715-9995 or toll free at (800) 965-9229.

Request a Return Authorization (RA) form from the Returns Department and follow the documentation instructions.

You can download additional copies of this manual by accessing the **Stealth** website (<https://stlpro.site/stealth-docs>) and searching "P136D689" in the search bar at the top of the page.

Warning Labels

Warnings are included for the safety of the user, client, operator, and property. Please read and understand what the signal words **DANGER**, **WARNING**, **CAUTION**, **NOTICE**, and **SAFETY** mean, and how they could affect the user, those around the user, and property.

DANGER

Identifies an **imminent** situation which, if not avoided, may result in **severe injury, death, and property damage**.

WARNING

Identifies a **potential** situation which, if not avoided, may result in **severe injury, death, and property damage**.

CAUTION

Identifies a **potential** situation which, if not avoided, may result in **minor to moderate injury and property damage**.

NOTICE

Identifies important information not related to injury, but possible **property damage**.

SAFETY

Indicates steps or instructions for safe practices, reminders of safe procedures, or important safety equipment that may be necessary.

Limited Liability

Stealth Products, LLC accepts no liability for personal injury or damage to property that may arise from the failure of the user or other persons to follow the recommendations, warnings, and instructions in this manual.

Stealth Products does not hold responsibility for final integration of final assembly of product to end user. **Stealth Products** is not liable for user death or injury.

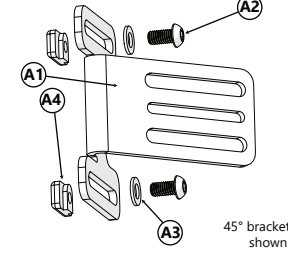

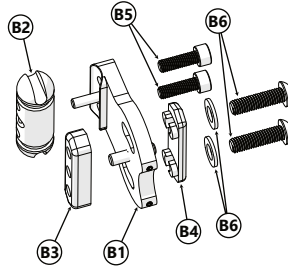

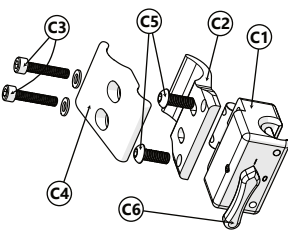

Testing

Initial setup and driving should be done in an open area free of obstacles until the user is fully capable of driving safely.

Intended Use

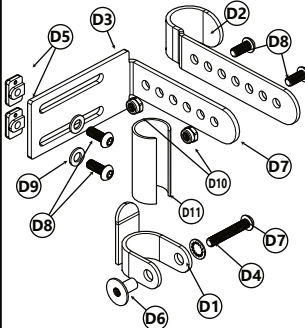

The **Simple Solutions Removable** hardware is intended to provide a versatile mounting solution for end users who require a removable mounting hardware for the True Forming Back (TFB) family. The hardware features isolated depth and angle adjustments that provide trouble-free adjustability.

Parts Breakdown

Item	ID	Part Number	Description	Qty.
A. Mounting Bracket 	A1	BKT13 (45°) BKT14 (90°)	Bracket for Flip Lock Hardware	1
	A2	M6 x 1 x 12MM BHS	M6 x 1.0 x 12MM Button Head Screw	2
	A3	M6 SSW	0.5 OD x .266 ID x .250 Thick Washer, Black Oxide	2
	A4	TFB200-88	Single Hole T-Nut Metric	2
B. Mounting Pin 	B1	BKT01	Removable, Angle Adjustable, Seat Back Bracket	1
	B2	PIN02	Latch Pin	1
	B3	NUT02	Threaded Pointer Slot Nut	1
	B4	SPC01	1" Slot Point Spacer	1
	B5	M5x0.8x16MM SHS	M5x0.8x16MM Socket Head Screw	2
	B6	M6x1x22MM BHS	M6x1.0x22MM Button Head Screw	2
	B7	M6 SSW	0.5 OD x .266 ID x .250 Thick Washer, Black Oxide	2
C. Back-Post Clamp 	C1	RCV02 (with latch)	Receiver (with latch and pin stop)	1
	C2	CLP01	Inside Clamp	1
	C3	M5x0.8x16MM SHS	M5x0.8x16MM Socket Head Screws	1
	C4	BR5002	Outside Clamp	1
	C5	M6x1x25MM BHS	M6x1x25MM Button Head Screws	1
	C6	PIN01	Cam Pin	1

NOTICE

Altering the hardware in any way
and/or improper installation
will void the warranty.

Item	ID	Part Number	Description	Qty.

Preparations

Only a qualified service technician may install the **Simple Solutions Removable** hardware.

WARNING

An incorrect installation of the **Simple Solutions Removable** hardware and its accessories can cause damage to the hardware and/or injury to the user.

Installation Plan

Set up an installation plan before beginning the installation. This plan should take into account:

- Where the **Simple Solutions Removable** hardware will be placed and how it will be adjusted.
- Sufficient clearance for other hardware, such as wings or laterals that may be required.

Required Tools

Use the proper tools to install and adjust the **Simple Solutions Removable** hardware to the desired position for the user.

The tools needed to install the **Simple Solutions Removable** hardware are as follows:

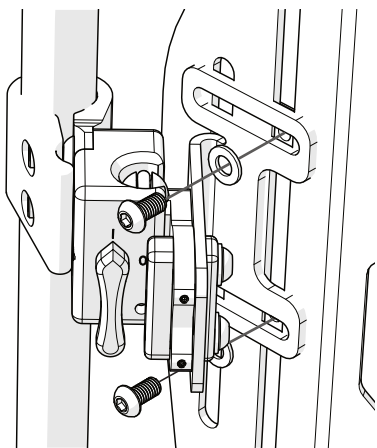

Hardware	Description
4mm Hex Key	Flat and Button Head Screws
10mm Combo Wrench	4-point installation, Nylon Lock Nuts

CAUTION

The use of improper tools may cause damage to the device. Any connection must always be secured with all delivered screws. Use only the screws included in the package.

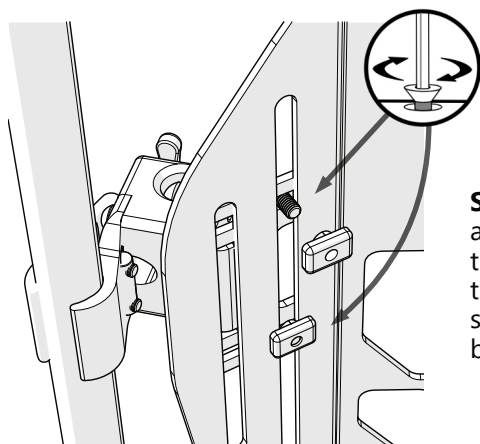

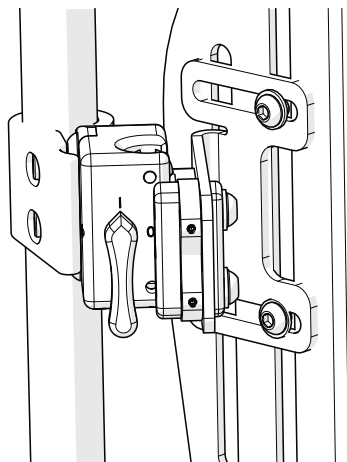

Mounting the Hardware to the Back Shell

Step One: Place M6x1x12mm Button Head Screws (A2) and M6 Washers (A3) in the top and bottom slot of the Mounting Bracket* (A1).

* 45° bracket shown. 90° bracket may be used, if needed, and will follow the same instructions.

Step Two: Insert the screws and the mounting bracket into one of the mounting slots on the back shell.

Step Three: Thread each screw into a Single Hole T-Nut (A4). Make sure the grooves in the T-nut line up with the edges of the slot. Tighten the screw to secure the mounting bracket in place.

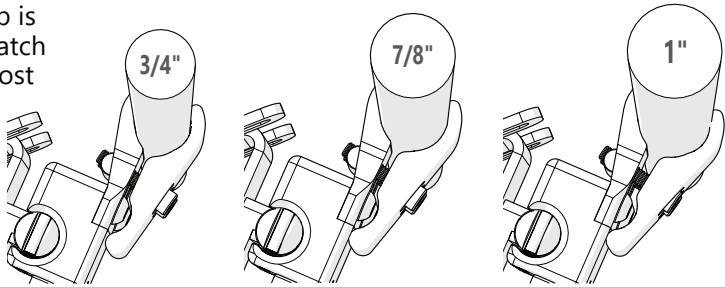

Step Four: The J & L mounting brackets follow the same procedure to install on the lower portion of the back shell in 4-point installations. Align the mounting brackets with the slots in the back shell and lightly snug the M6x1x16mm Button Head Screws to hold the mounting brackets in position.

SAFETY

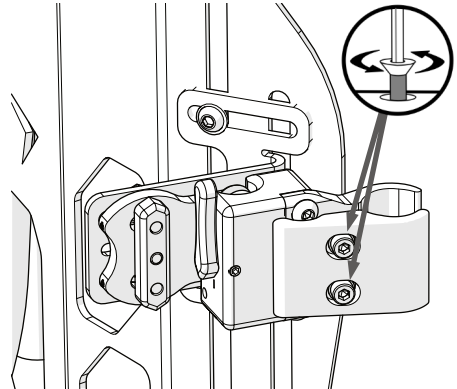

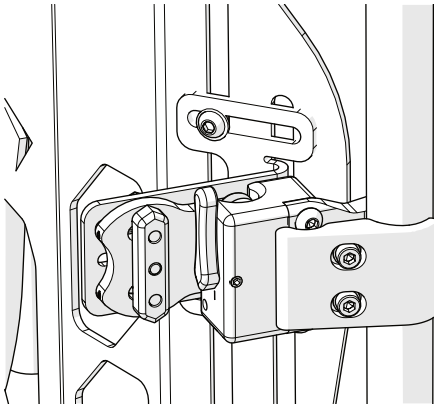

Periodically check all mounting hardware, ensuring each fastener is properly tightened.

Mounting the Hardware to the Back Posts

Note: The clamp is adjustable to match different back post diameters:

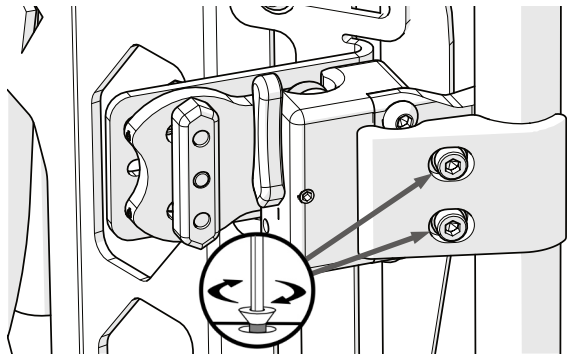

Step One: Loosen the two M6 x 1.0 x 25mm Socket Head Screws (C5) securing the Outside Clamp (C4) to the Inside Clamp (C2)

Step Two: Place the clamp on the cane at the desired position.

Step Three: Tighten the two M6 x 1 x 25mm Socket Head Screws (C5) to secure the mount on the cane.

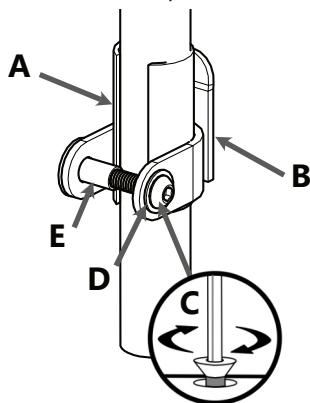

WARNING

Maximum Weight Capacity:
250 lbs. (113.40 kg)

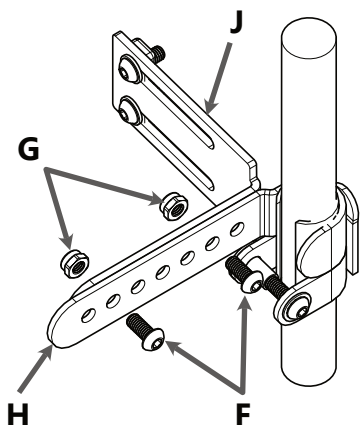

Mounting the J & L Hardware

4-point installations require the J & L hardware in the lower position. Depending on the back shell installed, you will use a 45° or 90° bracket* to mount this hardware to the back shell. 7/8" canes will require the BR2020 spacer (A) to fit the J&L hardware. (J&L hardware not included with 2-point installation.)

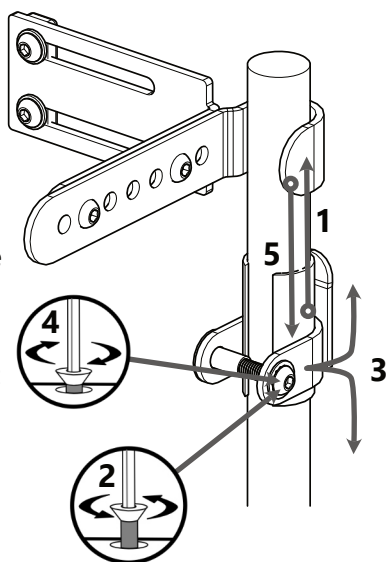

Step One: For 1" canes, the Hold Down Drop Stop Weldment (B) can be placed directly on the cane. For 7/8" canes, place the BR2020 Reducer (A) on the cane and then the Weldment (B). Position it in the proper vertical position on the cane and secure with the M6 x 1 x 35mm Button Head Screw (C), 5/16" 4 10 Internal Tooth H-Lock Washer (D) and M6 x 1 x 14.3mm Round Base - Weld Nut (E).

Step Two: To adjust the mounting hardware for depth, remove the two M6 x 1 x 16mm Button Head Screws (F) and M6 x 1 Nylon Lock Nuts (G) holding the 1 IN 7 Hole J-Hook (H) from the Double Slot Adjustable L-Bracket (J). Adjust the bracket to the desired holes and reinstall the screws to secure it in place.

Step Three: The 1 IN 7 Hole J-Hook (H) can be separated from the Hold Down Drop Stop Weldment (A) by pulling up gently and can be returned to the same position by placing it in the slot between the back of the weldment and the cane. If the fixed or removable hardware is adjusted for height, the weldment can be loosened and matched to the rest of the 4-point hardware using #1 - #5 as shown in the image to the right.

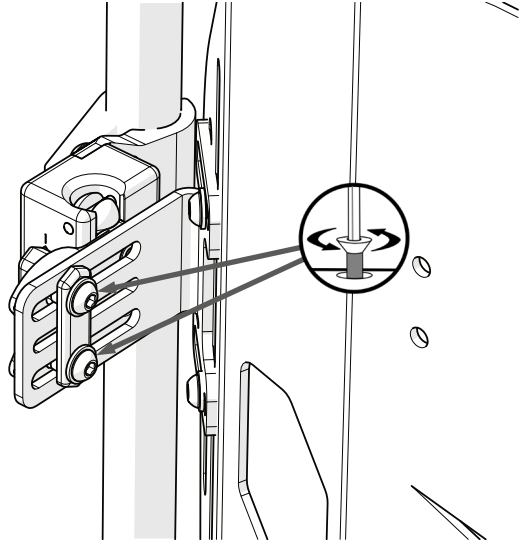

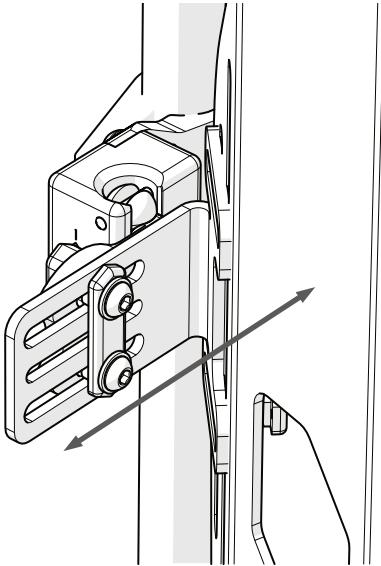

Adjustments

Depth Adjustment

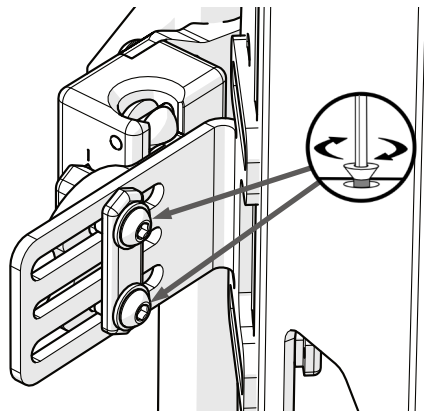

The **Simple Solutions Removable** hardware can be adjusted to increase or decrease seat depth.

Step One: Loosen the M6x1x22mm Button Head Screws (B6) attaching the Mounting Pin (B) to the Mounting Bracket (A).

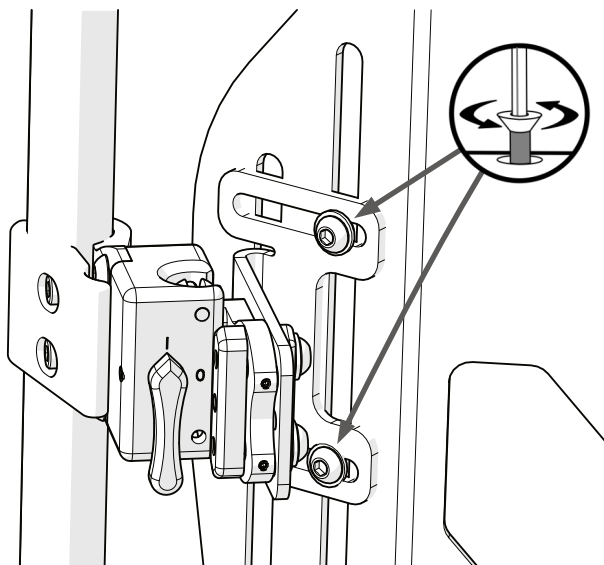

Step Two: Slide the Mounting Bracket (A) forward or backward into the desired position.

Step Three: Tighten the two M6x1x22mm Button Head Screws (B6) to secure the back shell in the new position.

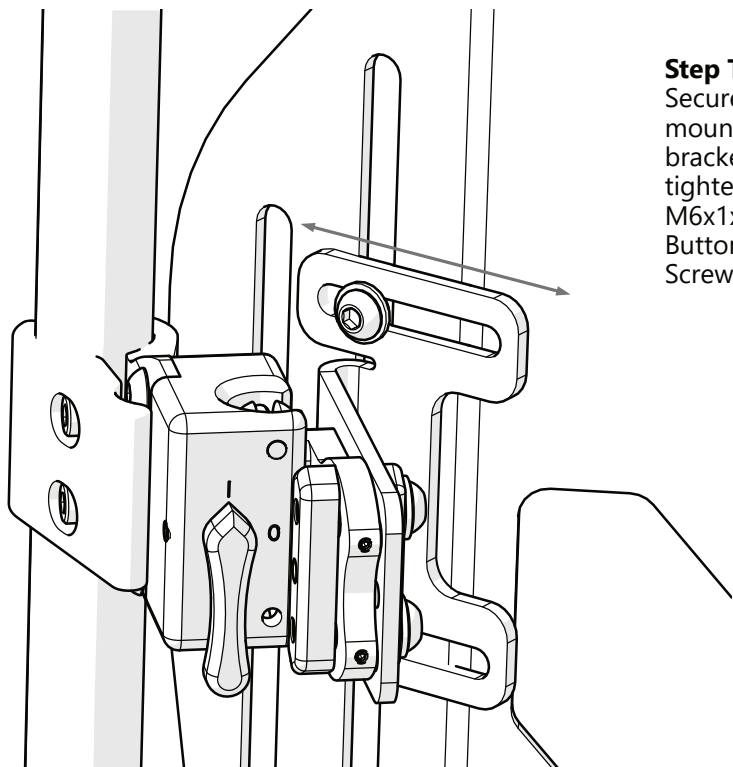

Width Adjustment

Step One: Loosen the M6x12mm Button Head Screws (A2) on both left and right mounting brackets (A1).

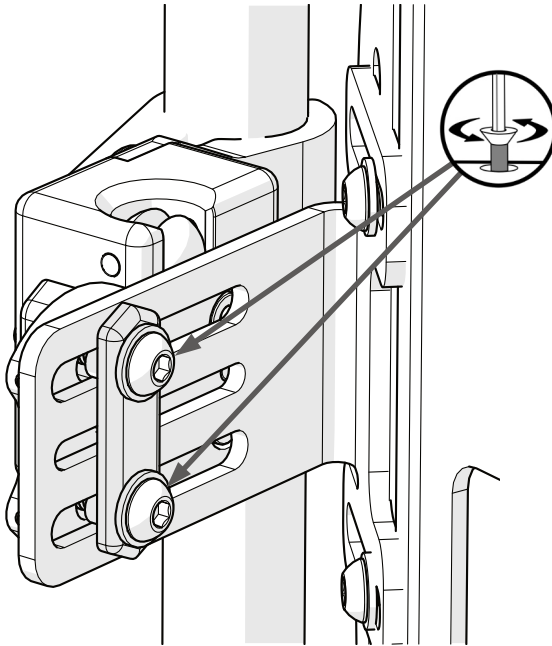

Step Two: Slide the back shell to left or right until the desired height is reached.

Step Three: Secure the mounting brackets by tightening the M6x12mm Button Head Screws.

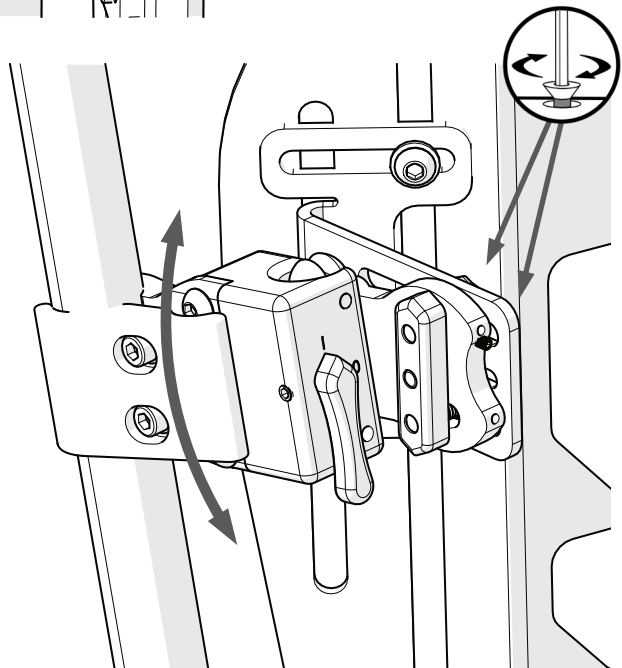

Angle Adjustment

Simple Solutions Removable hardware allows the back shell to pivot up or down.

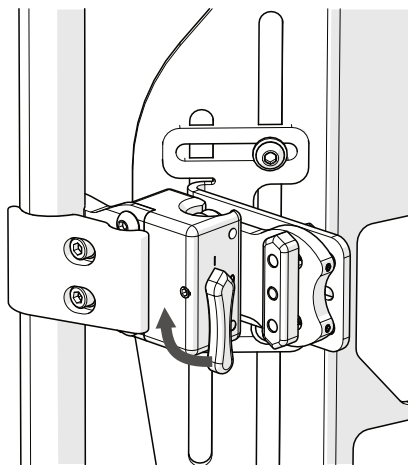

Step One:
Loosen the two
M6x1x22mm
Button Head
Screws (B6)
on both left
and right
mounting
brackets.

Step Two:
Tilt the back
shell up or
down to
reach the
desired
position.

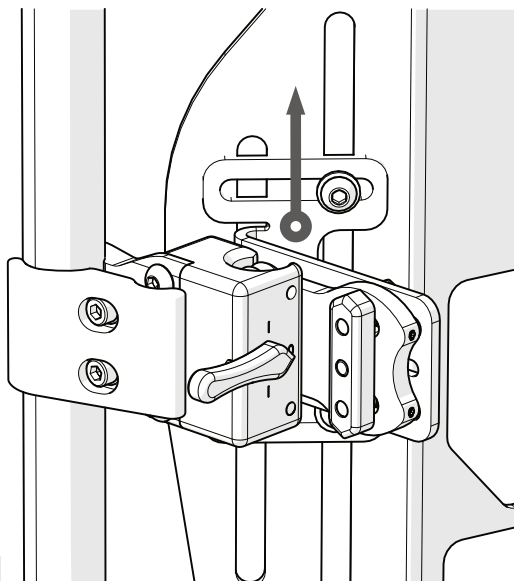

Step Three:
Tighten the
M6x1x22mm
Button Head
Screws (B6)
to secure the
back at the
new angle.

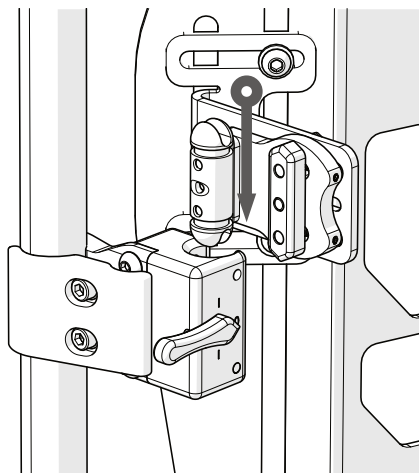

Removable hardware operation (2 pt. and 4 pt. Removable)

Step One: Rotate the Cam Pins (C6) a quarter turn on each removable hardware to unlock the mounting hardware from the Receiver (C1).

Step Two: Firmly grasp the back shell and slide the hardware out of the Receiver (C1).

Step Three: To replace the back shell, slide the Latch Pin (B2) into the Back Post Clamps (C). Rotate the Cam Pin (C6) back to the vertical position to lock the back in place

Step Four: Lift gently on the back shell to ensure the **Simple Solutions Removable** hardware has engaged and is locked in. If either latch is not fully engaged, repeat the steps above.

Dealer Assistance

During first-time use by the client, it is advised that the dealer or service technician assists and explains the set-up to the customer (the user and/or the attendant). If needed, the dealer may make final adjustments.

User Testing

It is important that the customer is fully aware of the installation, how to use it, and what can be adjusted in order to gain as much mobility as possible. As a dealer, proceed as follows:

- Explain and show the customer how you have executed the installation, and explain the function.

Have the user test the position of the **Simple Solutions Removable** hardware.

Is the hardware in the proper position for the client?

- Can the user safely operate all controls with minimal effort?
- If needed, make any adjustments to the positioning.

Explain to the customer possible problems and how to address them.

Conditions of Use

The **Simple Solutions Removable** hardware is intended for use as installed by the dealer, in accordance with the installation instructions in this manual.

- The foreseen conditions of use are communicated by the dealer or service technician to the user and/or attendant during the first-time use.
- If the usage conditions change significantly, please contact your dealer or a qualified service technician to avoid excessive wear and tear or unintended damage.

Cleaning

CAUTION

Exercise caution when removing the back to avoid punctures, tears, or other damage to the fabric or foam. Be careful not to catch hair, wires, or other items when zipping and unzipping the covers.

- Use a soft cloth to clean the hardware.
- Ensure all cleaners are approved for finished steel, aluminum, plastic, and upholstered surfaces.
- A brush with soap and water can be used to remove any dirt and debris.

Disinfection

- Wipe gently with a cloth dampened with a household disinfectant.
- Allow foam to air dry thoroughly.

Maintenance

These care and guideline instructions will keep the hardware and covers in good condition for a longer period of time and prevent damage.

- Check and tighten all fasteners on a regular basis. Do not overtighten the fasteners.
- Repair or replace parts as needed.
- Gently remove dust and dirt from hardware with a damp cloth as necessary.
